

Korell Outfitters

EMMETT, IDAHO

Korell Outfitters is a small and personalized family run outfitting business located along the Payette River in Southwest Idaho.

Owner Chris Korell and brother Cody Korell were born and raised here and together have over 24 years

experience guiding hunters in this area. They do everything it takes to make a successful outfitting business work.

From keeping together a great herd of stock for our elk and deer hunts, to breeding and training our pack of Treeing Walker hounds for a high success bear or lion hunt, this is what we do and we are proud to be professionals at it.

We have exclusive guiding rights to over 500 square miles of some of the best Big Game Hunting in the west. These areas are in IDFG hunting units 33, 35, and 39.

So please take the time and look over our information carefully. Whatever your needs are in a hunt, whether going solo or with a large group, we can handle it! People come as clients and leave as friends here at Korell Outfitters. See you on the mountain.

Elk and Deer Hunts

Korell Outfitters offers two different types of hunts for elk and deer. Both take place in IDFG Unit 35. This is a road-less area so hunter densities are quite low.

Access to and from the camps are all by horseback and mule string. Camps are between 2 and 3

hour rides from the trailhead, just far enough to get away from the foot hunters at the trailhead but close enough to make for a enjoyable ride in.

Hunting from the camp is by foot or horseback, depending on the camp or time of season.

Camps are 14 x 16 and 16 x 20 wall tents with carpet on the floor, cots, foams, chairs, tables, wood stove, and an outdoor shower. Hunters' success rates have been 75% for ten years.

The deluxe guided hunt is 7 days (6 full days hunting) and includes: guide, cook, field dressing, caping, food, and transportation of meat to locker. Hunter provides: personal gear, sleeping bag, rifle, ammo, license fees, taxidermy, meat processing, and shipment. License and tags can be purchase through the outfitter.

The drop camp hunt is 7 days (6 full days hunting) and includes: complete furnished camp, pack in to camp and out, and game packed into trailhead. Hunter provides: food, personal gear, caping, field dressing, meat processing, shipment, and license and tags.

Bear Hunts

Great numbers and a high percentage of colored bears (75%) give us the opportunity to provide our clients with an exciting, rewarding, and high

success adventure in the springtime in Idaho.

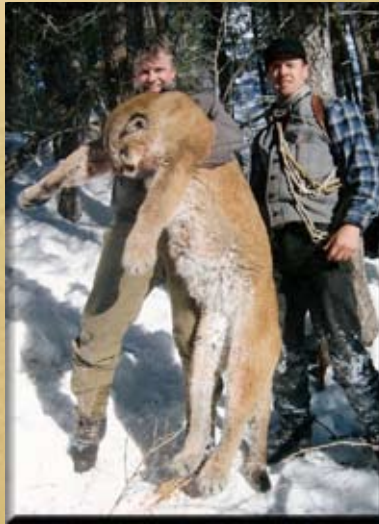

Whether you are a stand hunter wanting to hunt over baits or you would like to experience the thrill of chasing black bear

over the mountains with a well trained pack of hounds, we provide both.

Bear hunting with hounds is our specialty and have been raising top notch Walker hounds for generations. Watching these dogs work is a thrill in itself and hearing that all too familiar tree bark never gets old.

For those wanting bait hunts we provide multiple active bait sites for each hunter. The areas we hunt have little hunting pressure to insure a great hunting experience. Bear hunts are 6 day hunts. Hunting is done by horseback, foot, ATV, or 4 x 4 vehicles.

We provide: food, lodging, skinning, guiding, transportation, and care of trophy. Hunter provides: personal gear, sleeping bag, license, and tag fees.

Cougar Hunts

For those who have never seen a live cougar in the wild, this is an adventure of a lifetime. Because our operating area contains 60 miles of prime winter range on the Payette River, our cougar hunts are very successful. These big cats follow the game herds down the mountain and live on them during the winter months providing excellent

hunting opportunities.

We cover these areas via 4x4, snowmobile, or on foot until we find a fresh track. Then we unleash our pack of Walker

hounds to pursue and catch the animal. We have taken 5 BC cats the last 4 years and overall success has been 90% with 80% of that on mature toms in

the last 10 years.

This is a great hunt with lots of wildlife viewing and sightseeing. These are 8 day hunts.
